- **Meeting with Community Leaders**: Chair Wightman shared an overview of her meetings with county legislators and leaders of the three counties to introduce herself and have a conversation about the College. Trustee Wightman also met with Chris Sharkey (President of Corning Enterprise), Holly Segur (President CCCDF) and Millicent Ruffin (Corning Inc., Director of Community Affairs). She also thanked Trustee Chu for setting the meeting with Millicent Ruffin.

- **Board Gubernatorial Appointment**: Chair Wightman updated the Board on the prospect search of replacing the two vacant gubernatorial appointments (Tom Blumer and Gail Baity). Trustee Wightman is currently searching to fill the second seat and asked trustees to share their thoughts.

- **Meetings with President**: Trustee Wightman had meetings with Dr. Mullaney to talk about progress on his Path to the Future work plan, which is coming along great and noted the results of his leadership efforts.
• **College Strategic Plan:** With the enrollment decline, Trustee Wightman readdressed the need to set some priorities to develop a strategic plan which will involve developing some metrics to advise and report progress. She shared the notes from the retreat and hopes to use the document to prioritize the content of the strategic plan.

• **Committees Measurable Standards:** Trustee Wightman asked all committee chairs to review the measurable standards and to make sure the standards are up to date and prioritized.

4. **PRESIDENT OF THE COLLEGE’S REPORT.**

Dr. Mullaney started his report by proudly recognizing Christine Bonarski, the College Nurse, with a resolution of appreciation for assisting the college during the COVID crisis and for being a knowledgeable and compassionate resource for students and employees.

RESOLUTION #4705 Appreciation for Mrs. Christine Bonarski

BE IT RESOLVED, that the Regional Board of Trustees of SUNY Corning Community expresses its collective appreciation to Ms. Christine Bonarski for her selfless dedication in protecting faculty, staff, and students during the unprecedented COVID-19 crisis. (C. Heyward, R. Allison, Unanimous)

• **COVID Updates:** Dr. Mullaney provide an update on COVID and current testing pools going on at the College.

• **SUNY Update and Campus Operations:**

  • **Recruitment, Enrollment, and Retention:** Dr. Mullaney indicated the College is continuously working and pivoting in terms of recruitment and retention to respond aggressively to this challenging environment.

    o In addition to offering face to face classes, the College is working hard to improve its online learning.

    o Week-long seminar series for faculty teaching online

    o Workshops on teaching strategies as well as additional one on one training sessions with the Center for Teaching Innovation Excellence

    o Expand the college delivery of online classes for parking lot hotspots and a portable event lecture capture cart has been ordered to assist students in this online environment

    o The laptop loaner program and the student emergency fund in the spring semester have been restarted to assist students this fall. To date, 69 computers have been loaned to students and over $70,000 has been distributed to 116 students.

    o Virtual Orientation: CCC has now three new division based orientation programs labeled, Start to Finish. These orientations are designed to provide an extra personal touch in a virtual setting.

    o Reorganization of the Educational Planning area with the creation of the enrollment specialist role. This is a new hybrid position that would provide students with a more one-stop-shop mentality and aligns with the Guided Pathways initiative. This position involves a lot of cross-training so students can sit down with someone, get good advising, get enrolled, and get everything they need.

    o The Starfish Program is taking off. With the program, advisors, faculty and staff can work together to help students succeed.
The new Director of Communication will start next month.

- **Community Engagement:** Dr. Mullaney stressed the importance of establishing connections and partnerships on behalf of the College and shared an overview of his meetings with elected officials and community leaders of the three counties:

  - Met with the three hospital CEOs Jonathan Lawrence (Arnot), Becky Gould (Schuyler), and the new CEO of Corning hospital, Felissa Koenig to talk about their needs, moving forward, and the specific jobs that they're noticing.
  - Met with Chris Sharkey (President Corning Enterprise) to continue the steering committee work and discuss I-86.

Academic Affairs

- Griffin Bates, SUNY CCC ’19, presented a virtual local history lecture on "The History of Hate" on October 14. The session was an examination of race relations in America from 1790-1810 and included discussion of local history with letters from Colonel Williamson and local settlers. This event assisted with the lead up to the Eli Saslow’s sessions which were held the following week.
- Virtual meetings with adjunct faculty have been taking place this semester with Interim Provost Herbst and Dr. Kris MacDonald, Director of the Center for Teaching Innovation and Excellence. The sessions have been an effective way to communicate directly with and form connections among faculty who can’t regularly attend meetings.
- Faculty Yumiko Akiba and Eriko Heise participated in the virtual state wide Empire State Maker Faire and represented the SUNY CCC STEM division and Japanese Language Club. They held a session on creating origami using math vocabulary.
- Interim Provost Herbst joined the Highest and Best Use committee working on economic development for Opportunity Zone 7. The committee examined a number of factors to create a prospectus for developers focused on revitalization of sites in downtown Elmira. SUNY CCC plans focused on the Elmira Center supported and strengthened the case for redevelopment investment.
- Business Professor Deb Dunbar and ADI Deb Beall met with the Administrative Talent Pipeline Team for Corning Inc. A partnership has been initiated that will provide two SUNY CCC Business students summer paid internship opportunities with potential for employment with Corning Inc. in their mid-level management administrative assistant positions.

Student Services

- The four new Enrollment Specialist positions have been successfully filled. The reorganization creates a comprehensive team based approach for student engagement and success. Each Specialist will be responsible for a cohort of students and will also have cross-functional skills.
• The TRIO Grant program has been awarded a one-year extension. The funding has been reduced so new students can’t be added to the program but the approximately 70 enrolled students will continue to be served through June 30, 2021.

• The Learning Commons has experienced an almost 20% increase in the number tutoring sessions due to Starfish software referrals from faculty. The Starfish Warning Alerts surveys were completed in October and led to just over 4,000 tracking items going to students to improve success.

• The NJCAA approved a waiver to allow student athletes to participate this year with no impact on their total years of eligibility. The NCAA has also recognized this blanket waiver giving students additional incentive to stay enrolled to compete next season.

• The fall Cross Country season has ended with great success for the Men’s team. The team placed first in half of their meets and finished second overall in Region III.

• The new “Baron Necessities” Food Bank space is being developed in the Commons for February 2021 opening. The College will become a partner location in the Foodbank of the Southern Tier system. Trustee Polly Chu and family supported the development of the space with a donation that will purchase required equipment.

Cares Funding update
- We have received new guidance in reference to CARES funding and are continuing to review expenses that qualify.

VP Salisbury provided an overview of the agenda, noting there is one action item:
Action Item
- Operating Reports for September 2020
  Cash was at 6.9 million, still a portion of this that was Siemens in comparison to last year.
  AP and Student Receivables amounts in line with prior years.
  Cash represents 92 days of college operations

Discussion Items
- September Revenue/Expense Highlights.
  The Committee reviewed/discussed accounts payable and receivables
  Unrestricted - will see larger variances month to month as we are spending less and receiving less.
  Salaries are where we expected them to be. Contractual expenses are up a little due to timing because of ending prior year purchases August 1st.
  Restricted - takes into account the typical reductions we see in the spring. This number should come down if savings continue to happen.
  Athletics - athletic fee/budget will have more clarity after October number comes in, not many expenses as cross country is the only sport currently happening, a couple small purchases.
  Student activities budget - some budget lines are not shown as there is nothing to report at this time

- Planned Capital Projects
  Very little movement, still on hold with state reimbursements, dialogue continuing but no match at this point.

- Banner Improvement Project
  No changes from last month, FLAC is continuing, job scheduler project is complete.

- Campus Auxiliary Services
  Health Office busy with COVID testing and monitoring, checking on students in Perry Hall. The College has completed 83 individual tests, planned to have 500 pool tests completed by end of this week, held flu clinic and may offer again.
IT is reviewing contracts and re-negotiating for costs savings, two vacant positions being reviewed.
Public Safety has been assisting in pool testing, and continuing campus monitoring.
Physical Plant - Siemens energy savings project substantially complete, negotiating savings in maintenance agreements per spreadsheets, outdoor wireless access points being installed, recently completed annual fire safety inspection and only had three violations.
- CFO search – review of resumes completed, interviewing eight finalists and hope to narrow down and bring final candidates to campus.

The Committee agreed to forward the action item to the full Board for consideration and approval.
Trustee Wayne adjourned the Finance and Facilities Committee meeting at 4:53 p.m.

*Projects on Hold*

*Completed Projects*

*Return to agenda*
We have contracted with on-site and off-site consultants who have expertise in Banner, the College’s Enterprise Resource Planning (ERP), software to help the College identify improvements and efficiencies within our system as part of the Banner Improvement Project. The consultants have worked with various departments including the Registrar’s Office, Student Accounts, Financial Aid, Admissions/Recruitment, Human Resources and Information Technology.

Most recently, consultants have been working on the FLAC project with Human Resources.

Expenditures to date: $355,538
Health Office
- Pool Testing - Over 1,000 pool tests were completed to meet SUNY operational guidelines. Several asymptomatic COVID-positive individuals were identified and quarantined. The nurse continues to monitor cases of commuter and residential students and staff members who have tested positive or have been in contact with positive individuals.
- Plans are being developed for the Spring semester for student and staff COVID testing. SUNY guidelines have been reviewed and testing options are being discussed.

Information Technology
- The CIO is currently reviewing contracts and agreements and has identified several areas where costs can be reduced. Our Microsoft Enterprise Agreement was reduced over $7,000 annually.
- MYCCC – The College portal platform will no longer be supported by Ellucian after December 31, 2020. The current cost is nearly $100,000. Options are being explored at this time which the CIO will provide for review.
- FLAC – The final configurations are near completion including plans for full payroll testing. FLAC is on track to go live in January.
- Starfish – An investigation of current system programming and configurations are near completion. A concession from the vendor is being negotiated as initial configurations required adjustment.
- Cross-training for IT staff has begun and an ISO (Information Security Officer) has been created. This role is currently outsourced and using existing staff will save costs.
- A staff member will be trained with Media Services/AV/Classroom technology skills. These services are currently outsourced.
- The ITEC contract for CIO services was signed through 8/31/2021

Public Safety
- Officer Andrew Rowland was recently certified as a Red Cross Basic First Aid/CPR/AED instructor. He will be able to instruct Public Safety Officers and others.
- Officers continue to assist the nurse with pool testing. This includes notifications of people with positive and negative results, identifying those who need to be tested and transporting test samples to Syracuse for analysis.

Physical Plant
- The fire re-inspection was completed and all buildings have received Certificates of Compliance.
- Physical Plant staff helped facilitate the leasing of classroom space at ACP to Country Kids Childcare from November 2020 to June 2021. All requirements were met so the agreement could be signed. They began using the space on Monday, November 16th.
