Excused: Cunningham C. Blowers

Senior Staff: President Mullaney, Executive Director Clay, Executive Director Eschbach, Executive Director May, Executive Director Park, Interim Provost Herbst, Executive Director Chandler, Executive Director Burdick.

Support Staff: N. Ka-Tandia

Guests: Katie Crow, Stacy Housworth, Stacy Johnson, The Red Barons Softball team and community attendees.

1. CALL TO ORDER. Chair Wightman called the meeting to order at 5:43 pm

2. APPROVAL OF AGENDA: (R. Allison, Judy McKinney-Cherry, Unanimous).

3- APPROVAL OF THE MINUTES: (R. Allison, Judy McKinney-Cherry, Unanimous).

4. CHAIR’S REPORT. Chair Wightman provided the following report:

Chair Report:
- The Perry Hall Task Force has been meeting bi-weekly to discuss opportunities to better utilize the hall to further meet the short and long-term needs of our students and community. A summary is expected by late summer
- With Trustee Beers resignation, RBOT is exploring pulling a name that has been on the governor's desk for three years and bringing the person on the board through the county.
• July 10th is RBOT retreat. Staff Assembly and Faculty Assembly leaderships are invited to attend the retreat for a listening session

5. PRESIDENT OF THE COLLEGE’S REPORT.

• COVID Update:
  o The governor's announcement this week lifted state mandates around several key issues, including social gathering limits, capacity restrictions, social distancing, health screening and cleaning and disinfecting protocols.
  o College is currently waiting on guidance from SUNY on a final decision on the mandatory vaccines for students, taking classes on campus.

• Provost Search: Dr. Barbara Canfield will start her new position on July 1st, 2021. She has a doctorate in educational leadership and management from Drexel and masters and bachelor’s degrees and environmental science from Rutgers University.

• Commencement was a success. The drive-in ceremony allows students to sit with their families and step out of their cars to be individually recognized for their achievement.

• STEM Academy graduation ceremony was held on campus on July 10 with 20 graduates across all of the programs.

Dr. Mullaney concluded his report by introducing Jeff Macharyas who, presented the CCC marketing plan to trustees

6. STUDENT TRUSTEE REPORT:

SAGA Updates:

• Approved pilot plan proposed by Connie Park: Goal of the plan is to establish formal relationships between CCC and professional/community leaders, enriching and supporting club culture. Hope to see an increase in club culture and activity among students.

• Period Party Campaign: Schools sign up, allowing students to register to receive a free menstrual cup. This is a more sustainable and economically friendly option for menstrual cycle! CCC is now signed up, and students will be able to register next fall if they would like to.
- Began Veteran PTSD Awareness: Don’t Slam the Door Campaign signs posted on doors throughout campus, spreading awareness regarding veterans and the struggles they face in everyday life when suffering from PTSD.
- Idea for the next board: create positions in which one student from each degree program acts as a representative at monthly SAGA meetings.

**Student Feedback:**

- Commencement was a success! Students had fun, and enjoyed the unique experience.
- Students are looking forward to a more normal year with break weeks.
- Students are curious to hear what is next for CCC regarding vaccination requirements for the fall.

7. CCC DEVELOPMENT FOUNDATION, INC., REPORT.

**Foundation:**

- CCCDF Board met June 2
  - Rich Davis (EFPR Group) presented the 2020 audited financial statements and issued an unmodified opinion

**Housing LLC:**

- Welcomed 65 Corning Incorporated interns in Perry Hall this summer.
- Brailsford & Dunlavey presented their final report and recommendations in early May.
- The Perry Hall Task Force has been meeting bi-weekly and has more recently broken into smaller subcommittees to further explore the ideas for a long-term plan for Perry Hall.

RESOLUTION #4753-21- Graduation List, May 2021

BE IT RESOLVED, that the Regional Board of Trustees of Corning Community College hereby approves the May 2021 Graduation List. (C. Heyward, R. Allison, Unanimous)

Provost Herbst provided the following report:

**Academic Affairs**

- SUNY CCC has entered the American Mathematical Association of Two-Year Colleges (AMATYC) Student Research League for the first time. Student team members are Kristo Nasto and Austin Wallenbeck with George Hurlburt serving as the Faculty Mentor. The students will address a designed research STEM Challenge Problem which requires the students to perform research and write a thesis for a solution in 18 days.
- Honorlock proctored online testing has seen extensive usage this year with over 2,020 tests administered so far.
• Executive Director Jeanne Eschbach, Department Chair of Community Health and Justice Eric Smith, and Associate Dean of Instruction Debbie Beall have created two new microcredentials: Direct Support Professional I and Direct Support Professional II. In addition to working with individuals with developmental disabilities, direct support professionals may work in a variety of locations such as child care centers, residential treatment facilities, and eldercare programs. The curriculum in the microcredentials align with the national certification offered to Direct Support Professionals through the National Alliance for Direct Support Professionals (NADSP).

• SUNY CCC joins more than 35 colleges and universities including Stanford University, Tufts University, University of Michigan, SUNY Geneseo and UNC at Chapel Hill, in a two-day, online event bringing together more than 1500 students in a democratic deliberation. In this Deliberative Polling event, “Shaping Our Future,” participants will deliberate in small groups using a customized online platform developed by the Center for Deliberative Democracy at Stanford University.

Student Services

• SUNY CCC men’s bowling team members Cory Bigelow and Derik Lisi, won the NJCAA Region III Bowling Tournament in Singles, Doubles, and Overall events for our region. With travel restrictions changed after April 1st, Derik Lisi and coach Ben Smith were able to travel to the National NJCAA bowling tournament held in Lansing, Michigan.

• With over just 1,500 tutoring sessions this academic year, the Learning Commons has seen increasing numbers of students becoming comfortable with remote tutoring options. About 80% of the fall sessions and 85% of spring sessions have taken place fully remotely. As fall 2021 brings more students back to campus, remote tutoring options will continue to play an important role for students to access help at their convenience.

• Spring sports are underway with new expanded rules to allow limited spectators at games. Women’s softball currently has a 6-0 record and Men’s baseball has a 2-2 record.

• Over 350 students have applied so far for spring graduation and are in pending status. The application window is still open and graduation applications continue to come in. The total number of graduates this year (524 and counting) has already exceeded the 2019-20 total of 495.

• SUNY CCC students Madison Cunningham and Kristo Nasto were recognized with 2020-21 SUNY Chancellor’s Awards for Student Excellence.

• The total number of accepted students for fall 2021 from February and March is 175. This an increase over the total of 118 for the same period in 2020.

Banner Improvement Project

We have contracted with on-site and off-site consultants who have expertise in Banner, the College’s Enterprise Resource Planning (ERP), software to help the College identify improvements and efficiencies within our system as part of the Banner Improvement Project. The consultants have worked with various departments including the Registrar’s Office, Student Accounts, Financial Aid, Admissions/Recruitment, Human Resources and Information Technology.
Most recently, consultants have been working on the FLAC project with Human Resources. There have been no additional billings since last meeting.
Expenditures to date: $367,781

Campus Auxiliary Services Updates

Health Office

Working to create systems to verify and log employee/student vaccination status. The nurse has tested Banner which allows us to enter student vaccination information through the immunization module and she verified that COVID information can be recorded. In the event that the vaccinations receive full FDA approval we will also be able to verify vaccination status of New York State residents through the NYSIIS system.

Pool testing is ongoing, however, SUNY has changed the requirement and added an exemption for fully vaccinated employees and students who provide proof to the Health Office. This will greatly reduce the expense of testing. The cost is $15 per individual tested. We spent approximately $7,500 per week during the spring semester in addition to the cost of transporting the samples to Syracuse twice weekly.

Information Technology

Currently developing a long-term desktop replacement plan. Staff has identified computers that need to be replaced immediately and they hope to have them ordered within the next few weeks. Computers and hardware are currently backordered and some components have been difficult to find.

Options are being explored to replace the MYCCC portal. They are creating an implementation plan that will help to determine a timeline and what resources are needed.

Public Safety

A new department standard operating procedures manual is near completion. Officers will receive training this summer regarding the content.

The department participated in a training day in April that included a review of new legislation. Officers were also certified in the use of Narcan through a virtual class with a NYS trainer in Albany. The department also received 15 new Narcan kits for free for participating in the training.

Physical Plant
Staff worked to prepare the campus for the drive-in commencement ceremony. Cleaned Perry Hall during the week between the resident students leaving and Corning, Inc. interns moving in.

Currently have open searches for three cleaner positions, groundskeeper and a senior typist to replace retirements and resignations. Some positions were not filled since the fall to save money.

Trustee Parks Report

Provided an overview of the agenda and noted there are several action items on the agenda. She also updated trustees about the salary increase for staff and mentioned Chair Wightman’s desire to see more data and metrics.

Dr. Mullaney updated RBOT about the new Director of Nurse Education, Debra Gate.

Executive Director Park provided an overview.

   - Ensure that academic programming is in line with the overall strategic plan of the College
   - Evaluate the relevance of programming for transition into a four-year institution or entry into local industry
   - Confirming that completion of the program conveys graduates with the necessary skills to meet industry appropriate certifications and qualifications.
   - Assessing enrollment and completion metrics
   - Assessing the effectiveness of how programs deal with issues of diversity, equity, and inclusion.
2. Reviews the Strategic Enrollment Plan:
   - Evaluate the enrollment, awareness, and marketing of programs offered by the college.
• Ensure that the recruitment and enrollment process is informed by the needs of local businesses.
• Track relationships with local high schools to ensure knowledge of our classes and develop new programs with the service area’s schools.
• Identify barriers to student retention and utilize faculty in recruitment and retention efforts, where needed
• Evaluate student support services and receive updates regarding student-guided funding of activities.
• Promote access to traditionally underrepresent groups and evaluate the colleges efforts to support a diversity of thought, experience, race, sex, LGBTQx, religion, or other identity group.

3. Monitors academic affairs on behalf of the full board:
• The Committee recommends to the full RBOT faculty appointments received from the president and recommendations for promotion, tenure, and professional leave for the faculty.
• Monitor progress of the institution's effort to assess student learning to meet accreditation requirements established by the Middle States Commission on Higher Education.
• Review status of the Online Education plan addressing infrastructure, quality, enrollment and effectiveness of online courses, programs, and service.
• Review efforts by the institution to establish partnerships with transfer institutions to provide seamless experiences for students.
• Review efforts of the academic affairs and student services areas in creating a culture that embraces the concepts of social justice and inclusion.

Banner Improvement Project

We have contracted with on-site and off-site consultants who have expertise in Banner, the College’s Enterprise Resource Planning (ERP), software to help the College identify improvements and efficiencies within our system as part of the Banner Improvement Project. The consultants have worked with various departments including the Registrar’s Office, Student Accounts, Financial Aid, Admissions/Recruitment, Human Resources and Information Technology. Most recently, consultants have been working on the FLAC project with Human Resources. Expenditures to date: $373,672

Banner Improvement Project Update

July, 2021

1. What has been accomplished?

Registrar’s Office
- Elimination of prerequisite errors that were preventing students from registering for classes. {As of April 3, there are 1,575 classes registered in Fall, 2019 with zero prerequisite errors}
- Improved accuracy of Registrar’s reports such as advisor and graduation reports and lists of faculty teaching each term. Corrections were made to external reports such as the National Student Clearinghouse.
- Creating a working graduation application.
- Tested and preparing full implementation of supporting Chosen Name for student, faculty and staff.

Admissions
- Developed an admission process for ACE students including an online admission application which will significantly reduce the amount of manual data entry. This process will create student ID’s and will reduce the number of duplicate ID’s that IT and the registrar need to correct.
- Developed an admission process for freshman students including an online application.

Student Accounts
- Developed delinquency codes and added them to student’s accounts to more easily classify and verify for reporting.
● Reconciliation of the student accounts receivable to the general ledger. Identified the source of the problem which was due to SQL reporting issues and an account created in 1998 that caused a non-valid receivable.

● Refined the student hold process and created a report that shows student balances after authorized or memo aid is applied. We are now using Banner baseline process for holds on student accounts (previously relied on sequel holds process).

● Completed an application for a payment order.

● Developed a new pre-collection process for students who are delinquent on payments.

**Academic Affairs**

● Made improvements to the process the college uses to set up terms, courses, classes, students and curriculum.

**Human Resources**

● Progress has been made in setting up FLAC. This process has included:
  ○ Created new rate tables and codes,
  ○ Corrected accounting and student dept codes,
  ○ HR data was clarified, and
  ○ A better understanding of SUNY TRS reporting methods.

A second test run is planned in late July. Currently the SICAS programmer is working on checking our scripts and verifying that all required calculations are in one single version. A full semester test run will be completed in the fall. FLAC has provided a greater understanding of our campus processes when paying faculty and the ability to make the process more accurate and efficient. At this time the FLAC committee is working on creating reports for overload and faculty load and other necessary for payroll, HR, and the ADI’s.

**Accounting/Payroll**

● Developing plans to move the faculty load process from an Access database to basic Banner. This database is no longer supported.

● IT has worked with the Controller regarding a problem with reconciling accounts receivable sub-ledgers to the general ledger.
• Tested the ability to create audit reports for the upcoming audit.

**Information Technology**
• Have the Banner Communication Management and the Banner Self-service Registration applications running which will eliminate many existing manual processes.
• Training of personnel in the Registrar Office, Student Accounts Office and Information Technology Department in the use of Banner. This is an ongoing process that is an important responsibility of each of the consultants.
• A script was developed to deactivate over 130,000 “active” students prior to January 1, 2015. This will avoid the timely process of manually deactivating these student accounts. Cleaning up these records will improve the integrity and security of the college’s reporting process.
• A new security model was developed to limit employees' access to view and/or change specific information within the Banner system. Permissions were reviewed and access limited to very specific end users.
• Implementation of a Job Scheduler for Financial Aid and Student Accounts. This will create automated job scheduling to eliminate a manual scheduling process. It is anticipated that this may also assist other departments on campus that use Banner.

**Workforce Education**
• Developed a Workforce Education admissions workflow that separates these students to exclude them from the clearinghouse report which has caused errors in that they should not be included in this report.

2. **What quantifiable efficiencies and spending saves have been created?**

Multiple staffing hours in both student accounts and financial aid have been saved with a working job scheduler. CCC implemented this during a pandemic while fully remote, we are still receiving training and assistance from the company (ISE) to assist with changes and creating new reports.

By migrating reports from Access to Argos (reporting software) this also assists with efficiencies as the reporting software is more robust and easier to maintain the report.

3. **How are we ensuring that we are fully utilizing it?**
a. Banner is a large product and a campus of our size will not fully utilize all of the functionality. To ensure we are utilizing the modules we have and to remain updated, we use the SUNY SICAS Center for support and information.

b. Keeping up with training and learning new features within Banner will assist SUNY CCC in keeping current with SUNY and State data standards.

c. Current list of outstanding projects

   ii. Implementation of Self Service Banner 9 - This will be completed in stages. CURRENTLY ON HOLD.

   iii. FLAC - Nearing completion. Estimated full implementation is SPRING 2022.

   iv. Migrating Student Disability Services tracking to Banner. This is currently done in an outdated Microsoft Access Database. With migrating data to Banner there will be redundancy protections and room for more data tracking. The reports will also be pulled from our Argos system which is fully supported.

   v. Banner Permissions Rework - IT is currently working with Banner security managers (Banner Data Custodians) in making sure that user permissions are more locked down and secure. With blanket permissions like we currently have there is room for errors and security issues. By fixing this issue we are not only securing banner data but also cleaning up databases (less room for error), and implementing security procedures that SUNY would like to see. - Estimated completion date SUMMER 2022.

   vi. The remaining critical project is migrating our Microsoft Access Databases to Argos. This would make processes more efficient, would ensure redundancy and proper reporting. This project will take time as it will require all departments that utilize Access to and map out their current reports. This includes listing where the data resides in Banner and then stating how they would like the data displayed in a report. The hurdle is the current database can’t be reverse engineered so each report will need to be re-written.

4. Who is managing the process going forward?

   The project has been managed by our Banner User Group (BUG). The Banner User Group is composed of high level Banner users that manage information input and implement Data Standards. Currently BUG has put on hold newer projects in an effort to focus on a clean implementation of FLAC (Faculty Load And Compensation). The compensation is currently being tracked in our Microsoft Access Database.
5. Should we engage in an efficiency study?

This would be beneficial to CCC, after some of the projects are completed. The positive progress we have made with the implementation of FLAC will significantly improve our processes. Because we are a member of SUNY SICAS Center which includes over 48 campuses (both 4 years and 2 year), IT staff recommends that SICAS comes to campus again to view our processes and see if there is an Ellucian (owns banner) or SICAS (modified for SUNY) process that will allow CCC to better utilize Banner. After an engagement with SICAS an evaluation with Ellucian could be completed. To ensure we are always using this system efficiently, we need to continually have open communication with our SUNY counterparts to see how they are utilizing Banner and assess whether we could use the same functionality or if we should alter some of our processes to take advantage of other functions. Our contract with ITEC will allow us to communicate on a broad scale with other Banner colleges and universities. A regrouping or efficiency study should be conducted every 3-5 years at the most.

* Current Computer Replacement and Classroom Technology Upgrades are being funded through the Federal Stimulus Funds
Information Technology Department
Projects completed during the fiscal year:

● Technology upgrades and computer replacements

● Chosen Name Project - Completed for (Banner, Class Roster, Blackboard, Class Block Schedule Class grade list, email, and MyCCC).

● Review of contracts and software agreements. Some agreements have been modified based upon current enrollment figures which will provide cost savings.

● Implementation of the ISE Job Scheduler for Student Accounts and Financial Aid use at this time. This project will provide time savings and improve efficiency for these departments.

● Creation of a supervisory structure - three Assistant Directors were appointed and each has a specific area of responsibility within the department.

● Yuja - Software to replace Ensemble which was used to store video materials. Yuja will cost $18,000 per year with free auto captions and cheaper human captioning, along with a plethora of teaching and learning options that will enhance HyFlex and Online classes. In addition to the many additional features Yuja provides, we will realize a cost savings of nearly $25,000 annually.

● Agreements with ITEC and SICAS regarding needed services. A CIO was provided through ITEC and a programmer from SICAS has assisted with a number of projects. We see great value in these services and intend to continue these agreements with possible expansion in other technical areas.

● Google Workspace - Expansion of our current license with Google Enterprise. The new license will assist us in more heightened security and will expand educational benefits to students and faculty (ie. Google Meet expanded time, recordings etc.).

● IT Staff has reviewed computer usage data as far back as Fall, 2019. It was decided to remove computers which have had very little usage. These units were outdated and out of warranty. As of 8/17/21, we have reduced the number of computers on campus from 918 to 798. The cost to replace these computers would have exceeded $120,000 with additional staffing hours to install and configure the replacement units.

● Completed the IT setup for a Financial Agreement for Students (not including workforce or ACE) for payment. A legal document is digitally signed by the student agreeing to pay for services rendered.
● Changed our Blackboard file integration for easier use with ACE and Workforce. Classes will show to the students/faculty in those areas during correct times. This lessens manual work for the registrar and the CTIE office.

● The Banner Improvement Project has continued with numerous projects completed or nearing completion. An update to the Banner Improvement Project was provided to the committee during the August, 2021 meeting.

IT Projects/Goals for 2021-2022:

● MyCorning (myCCC) project is expected to be completed and tested before the end of December, 2021. This project is a collaborative effort of a number of staff members and is expected to provide a new look viewable on a PC, tablets and phones. There will be an annual cost saving when the project is complete as contracts will end with our former myCCC service providers.

● Technology upgrades (including reduction of unused/minimally used hardware) and computer replacement will continue. The department expects to review other areas where a reduction of computers and technology can be reduced.

● Completion of FLAC in the HR Banner Module.

● Policy or Agreement on IT security in regards to passwords and life span of accounts. A protocol will be developed for the management of the number of active accounts we are maintaining.

● Continuation/Expansion of agreements with ITEC and SICAS regarding needed services.

● Continuing enhancements to Starfish to assist in supporting the retention of students.

● Working with ITEC to implement adobe sign, a digital signature program. This will increase efficiency and provide various departments the ability to reduce cost of paper, toner and postage.

**Health Services**

Projects/Activities during the fiscal year:

● An oversight agreement was signed with Schuyler Hospital. This agreement expands the medical services available to students and staff, including COVID-19 testing and telemedicine.

● Participated in monitoring of students who were exposed to covid, and covid positive students. Maintained data on covid cases and numbers of students that were quarantined. The data was provided to SUNY for inclusion on the SUNY COVID-19 dashboard.

● Participated in weekly SUNY calls to receive updated information regarding mandates and recommendations from SUNY Administration.
Networked with Chemung, Schuyler and Steuben County Health Departments to maintain communication as our COVID-19 protocols evolved.
Conducted numerous virtual training and information sessions for staff and students regarding college COVID protocols.
Assisted staff and students who received a positive test result and/or had questions and concerns regarding exposure to COVID-19.
Participated in Covid testing which to date includes:
  ○ 8,879 Pool tests
  ○ 265 Rapid tests
  ○ 239 PCR tests

Projects/Goals for 2021-2022:
- Promote COVID vaccination and provide assistance to students wishing to obtain the vaccines, as well as other vaccines.
- Promote telemedicine and increase utilization of this service by students.
- Appointment of a second part-time RN which will allow us to increase office hours and offer more educational programs.
- Offer flu clinics and continue to work with the Red Cross to promote on-campus blood drives.

**Physical Plant**
Projects completed during the fiscal year:
- Upgraded the stone sign at the Marland Road entrance to the main campus.
- Installed new hallway motion sensor lighting controls in several buildings. This should save a considerable amount of money in utility costs and staff hours as Public Safety Officers were required to turn on/off hallway lights daily. The sensors will also provide additional security to buildings as unauthorized visitors would trigger the lights when moving through buildings. This project was paid for with funds remaining from the Siemens project.
- Replaced some exterior doors in Chemung Hall and Steuben Hall.
- Prepared the gymnasium for the New York State Mass Vaccination Site
- Assisted in setting up the Health Education Center for COVID-19 testing by the Steuben County Health Department.
- Installed a number of COVID related safety barriers in offices and prepared classrooms and offices for appropriate social distancing per CDC guidelines.
- Increased disinfecting throughout buildings and set up hand sanitizing stations.
- Prepared the campus for building shutdowns during December and part of January to help save utility costs.
Projects/Goals for 2021-2022:
  ● Completion of Facilities Master Plan
  ● Work with the Space Utilization Committee to create plans for unused or little used space. This committee will include the IT Department as they identify ways to decrease the amount of technology in some areas and update technology in specific classrooms.
  ● Begin the conversion of the Planetarium to the Digital Dome.
  ● Continue the Schuyler Hall HVAC project to add cooling in the single story westwing.
  ● Work with the STEM Division as the Mechatronics area and Maker’s Space are developed.

Department of Public Safety
Projects/Activities during the fiscal year:
  ● Completion of Officers Manual
  ● Completion and approval of Police Reform Plan
  ● Beginning in the fall, 2020 semester, Public Safety Officers collected pool test samples from students and staff, transported samples to Syracuse and notified COVID-19 positive individuals of test results. Staff also assisted the Steuben County Sheriff’s Office with monitoring quarantined resident students in Perry Hall who tested positive or were exposed to a positive individual.
  ● Officers staffed a screening station on the main campus and in the Elmira Center to assist with contact tracing and record keeping of visitors to the campuses.
  ● Members of the Department of Public Safety completed a total of nearly 600 hours of in-service training during the year. Topics that were addressed included; Emergency Management, Diversity Awareness, Suicide Prevention, Community Policing and Ethics, NARCAN certification, COVID-19 related topics and several online FEMA courses.
    ○ 3 Peace Officers attended a 5-day Campus Safety Officer course at Mansfield University in July.
    ○ All Campus Safety Officers completed an in-house 8-hour annual in-service Security Guard course.
    ○ 3 Campus Safety Officers completed a 16-hour NYS mandated “On the Job” course.

Projects/Goals for 2021-2022:
  ● Continuation of the pool testing program as SUNY mandates are developed.
  ● Explore more training options regarding current best practices and other topics associated with the police reform plan.
Develop a General Orders Manual that outlines departmental procedures.

**Other Auxiliary Services Projects/Activities for 2020-21**
- Appointed Diana Harrington as a Senior Typist for Physical Plant and the Information Technology department. Diana replaces Crystal Dow who retired in November, 2020 and her services will be split between the two departments.
- Conducted periodic reviews of our printing services contract and Print Shop management to explore areas of cost savings.
- Regular meetings with the Emergency Response Team and Safety Committee were held to discuss concerns and develop and revise existing plans.
- A Continuity of Operations Plan (COOP Plan) was developed and submitted to SUNY in compliance with a September, 2020 Executive Order by Governor Cuomo.
- Attended weekly COVID meetings with SUNY leadership and participated in a daily status check phone call with a SUNY representative.
- Monitor the listing students and employee who have provided proof of vaccination and track weekly pool testing.

Projects/Goals for 2021-2022:
- Complete the revisions to the Emergency Response Plan and work with the Communications Team to update the Crisis Communication Plan.
- Conduct emergency training and evaluate our plans for possible revisions/updates.
- Review our Print Services and Print Shop operations - our existing contract expires in December, 2021.
